

U. S. DEPARTMENT OF COMMERCE
NATIONAL BUREAU OF STANDARDS
WASHINGTON 25, D. C.

Letter
Circular
LC978

LIST OF COMMERCIAL STANDARDS
Revised to January 1, 1950

(Supersedes
LC956)

GENERAL INFORMATION

Commercial Standards establish standard quality requirements, methods of test, rating, certification, and labeling of commodities, and provide uniform bases for fair competition. They are developed by voluntary cooperation among manufacturers, distributors, consumers, and other interests, upon the initiative of any of these groups, through a regular procedure of the National Bureau of Standards established for that purpose. The procedure is explained in detail in a pamphlet entitled Voluntary Standards Adopted by the Trade, obtainable gratis from the Commodity Standards Division, National Bureau of Standards, Washington 25, D. C.

Under A, Alphabetical List, (beginning page 3), titles are alphabetized according to the first word of the title, and according to the Federal Standard Stock Catalogue Listing. Under B, Classified List, (beginning page 10), titles are grouped for the convenience of those who have expressed a desire for a quick survey of Commercial Standards in specific fields.

Those marked "OP" are out of print, but may be consulted in many public and college libraries. In a few cases, marked "MO" (Micrographed Only), no printed copies are available, although they may become available before this Letter Circular is revised. Write to the Commodity Standards Division, National Bureau of Standards, Washington 25, D. C., for information on the status of such standards.

Copies of printed Commercial Standards may be consulted in public and college libraries. They may also be purchased in the manner indicated below.

Domestic orders for printed publications should be addressed to the Superintendent of Documents, Government Printing Office, Washington 25, D. C., and accompanied by check or money order payable to the "Superintendent of Documents", or by coupons (obtainable from the Superintendent of Documents, in sets of 20 for \$1.00 and good until used). When ordering, number and title of publication should be given, as, for example, "CS142-47, Automotive Lifts". A discount of 25 percent will be allowed on orders for 100 or more copies. Remittance is required in advance of shipment. The prices in this list are for publications which are to be delivered to addresses in the United States and its possessions, and to countries extending the franking privilege.

Orders from other countries should identify the desired publications by number and title, and should be accompanied by remittance plus one-third of the total list cost of the specific publications, to cover postage. Remittance should be made payable to the "Superintendent of Documents", and mailed with order to that officer at the Government Printing Office, Washington 25, D. C., U. S. A.

Commercial Standards for Exports. A list of Commercial Standards established in cooperation with interested exporters for the promotion of foreign trade, and printed in English and other languages, is available on request (TS-4748).

Simplified Practice Recommendations. Simplified Practice means reduction of excessive variety of manufactured products, or of methods. Simplified Practice Recommendations are records of stock items, retained after superfluous variety has been eliminated. These recommendations are developed by voluntary cooperation among manufacturers, distributors, consumers, and other interests, upon the initiative of any of these groups, through a regular procedure of the National Bureau of Standards established for that purpose. The procedure is explained in detail in Simplified Practice, Its Purpose and Application, Letter Circular LC590, April 15, 1940, National Bureau of Standards.

Copies of effective Simplified Practice Recommendations may be consulted in public and college libraries, and may be purchased from the Superintendent of Documents. A list will be mailed on request to the National Bureau of Standards.

Technical News Bulletin. An excellent means for keeping informed of new Commercial Standards and Simplified Practice Recommendations as issued, and of revisions of these publications, is by subscribing to the Technical News Bulletin of the National Bureau of Standards. This illustrated periodical is published monthly, and presents concise articles summarizing recent developments and research completed at the NBS. Announcements of new standard samples, technical services, and changes in values of scientific constants, with a list of all NBS publications issued during the preceding month, are included. The subscription price is \$1.00 a year in the United States, Canada, Cuba, Mexico, Newfoundland, and Republic of Panama; other countries at \$1.35. Single copies may be purchased for 10¢ each. Orders should be sent with remittance to the Superintendent of Documents, Washington 25, D. C.

A. ALPHABETICAL LIST

<u>Title</u>	<u>CS No.</u>	<u>Price</u>
Adverse-weather lamps for vehicles (after market) - - - - -	81-41	5¢
